

**IN THE SPECIFICATION**

At page 18, lines 9-13:

Specific features of the subject apparatus **10** will become apparent through the explanation of a screening for drug metabolites in a urine specimen. Cassette **16** may be snapped into closure **14** at the manufacturer or may be snapped in by the testing personnel. Closure **14** may have lips ~~**61**~~ **51** that provide a snap fit. The cassette **16** is uniquely designed to cooperate with the closure.
